You Are Invited to a Community Information Session

Jersey Central Power & Light
A FirstEnergy Company

JCP&L will host a Community Information Session on January 28, 2016 to provide the community with detailed information on the upcoming environmental remediation of the Cape May former manufactured gas plant site, located north of the intersection of Lafayette and St. John streets in Cape May. The work is anticipated to begin in mid-February. It will be performed in accordance with the requirements of the New Jersey Department of Environmental Protection and in cooperation with, and under the oversight of, our Licensed Site Remediation Professional.

Keeping You Informed

JCP&L is committed to open communications with our neighbors and the community. The Community Information Session will provide an overview of work completed to date and detailed information on the upcoming activity. Maps, photos and graphics will be on display and representatives from the JCP&L project team will be on-hand to answer questions.

Please Join Us
